NYK approves acquisition of RORO terminals in Belgium

The Board of NYK in Tokyo today approved the takeover of the Belgian RORO terminals in Zeebrugge and Antwerp from PSA.

This decision is in line with NYK's medium term strategy, set-out in the NEW HORIZON 2007 policy document, to improve NYK's port infrastructure to ensure stable marine transportation.

Svein Steimler, Managing Director of NYK Line (Europe) RORO Ltd commented: "This decision means that NYK, already the global leader in RORO transportation, is set to expand the scope of its quality services to customers in RORO terminal operations. After extended and fruitful negotiations with PSA, NYK will continue investing in Belgium, being one of the leading North European export and import corridors.

" We are aiming to continue NYK's policy of building state-of-the-art RORO terminal facilities, in terms of quality and systems, to meet the expectations of our customer base and to continue our proactive approach towards the handling and transportation of cars and other rolling cargo."

About NYK

Nippon Yusen Kabushiki Kaisha, (NYK), is one of the world's leading transportation companies. The NYK Group operates approximately 700 major ocean vessels as well as planes, trains and trucking fleets. Its shipping fleet includes around 130 container ships, 210 bulk carriers, 40 wood chips carriers, 100 car carriers, 25 Reefer carriers, 55 tankers, 20 Liquefied Natural Gas carriers and 3 cruise ships. NYK's revenue in 2005-06 was \$16Bn and as a Group, NYK employs 33,000 people worldwide. It has offices in 240 locations based in 27 countries, warehouses in every continent and harbour operations in Asia, North America and Europe. Global Headquarters are in Tokyo, with Regional HQs in London, New York, Singapore, Hong Kong, Shanghai, Sydney and Sao Paulo.

NYK Again Selected for Dow Jones Sustainability World Index and FTSE4Good Global Index

Nippon Yusen Kaisha (NYK) has once again been selected for the Dow Jones Sustainability World Index (DJSI World) and the FTSE4Good Global Index, the two major indexes for socially responsible investment (SRI). NYK has been a part of both of these indexes for the past four years.

The DJSI World is a global stock index for SRI, developed jointly by Dow Jones & Company, a U.S.-based publisher of business and financial news and information, and the SAM Group, a Swiss-based company that conducts assessments on corporate sustainability. The FTSE4Good Global Index was launched by FTSE, an independent, UK-based index company that was originally a joint venture between the Financial Times and the London Stock Exchange.

Both indexes are regarded as important benchmarks for investors who are concerned about corporate social responsibility and corporate sustainability. In addition, because the companies selected for these indexes are included in the portfolios of SRI funds and environmental investment funds, these indexes attract the attention of global investors.
